

DRAFT

~~CONFIDENTIAL~~

SUBJECT: Personnel Requested for OPC Training Branch T/O

1. Assumptions. (a) The attached T/O and description of duties of personnel requested is based on the assumption that OPC will establish the following courses:

(1) Basic Operations Course, three weeks in length, 13 courses a year, forty students in each course.

(2) Advanced Operations Course, four weeks in length, 10 courses a year, twenty to thirty students in each.

(3) Administrative Training Course, one week in length, approximately twenty courses a year, approximately twenty students in each.

(4) Specialized training in mechanical techniques such as photography, surveillance, locks, etc. (using OSC facilities), one to two weeks in length, for five to ten students, as needed.

(b) The cycle through which a student will go is assumed to be three weeks of basic training, after which the best-qualified one-half or two-thirds of the students will enter advanced training of four weeks, while others may require administrative training of one week. Some students may require three weeks basic, one week administrative, four weeks advanced, and one to two weeks of technical training, so that the maximum would be two to three months, allowing for time lapses in entering courses.

2. The total personnel requested [REDACTED] of the various units to which they will be assigned follows:
